## Principal's Message

**Student /Parent/Teacher Conferences - Tuesday 6 July 1.30pm-7.00pm, Wednesday 7 July 3.30pm-6.00pm. Student Reports will be given to you at the meeting.**

This is a meeting between you and the teacher to talk about your child's learning and progress. In more and more schools, students attend the meetings as well. These meetings are often called three-way conferences.

Meetings are usually short, so it's worthwhile for you and your child to do some preparation and make some notes to make the most of the time:

- think about what you have noticed about your child's work - parents often notice things when they are helping their child with homework
- talk to your child about how they feel about school and anything that they are really enjoying, finding too easy or too difficult
- ask them if there's anything they want you to talk about with the teacher. If it's a three-way conference they can ask these questions

### What sorts of questions might I ask?

- Does my child take part well in class?
- Is my child progressing as expected?
- What do they do well?
- What do they need help with?
- What can I do to help?
- Does my child seem settled at school? How do they get along with others?
- Are there any areas of concern?
- What's the best way to contact you if I want to follow up on anything we've talked about?

### Should I talk to my child about what the teacher said?

Even if your child doesn't ask, they'll probably be keen to hear what you talked to the teacher about. Share the positive things that the teacher said and give them plenty of praise. Then talk about anything the teacher suggested you could do at home to help them.

If you didn't agree with something that the teacher said, it's better to stay positive about the teacher or the school in front of your child. If you have concerns about anything that was discussed, you should arrange a separate appointment with the school to talk about this further.

**Please note:** If the days/times do not suit, please arrange an alternative day/time that works for both you and your child's teacher. Make every effort to fulfill your obligation as partners in your child's education journey.

## Matariki Stars:

First we researched Maori design and patterns to use on our stars - koru, tukutuku patterns and ta moko patterns. Then we used a variety of art mediums to create each part of our star - pastel, coloured dye, marker pen, crayons and coloured pencil.

Finally the stars were carefully cut out and glued together to make a bright, colourful 16 point star.
